How to Set Up Your Custom PlantX Website

1. Collect all the information and photos from the list below.
2. Send the information to your PlantX contact.
3. While your PlantX contact is working on creating your website, you will need to make sure that you have plant photos, facts, and descriptions uploaded to your materials in PlantX. See How To: Manage Materials at plantx.net/tutorials.html.
4. Your PlantX contact will send you the link to your draft website and changes can be made from there.

What We Need From you
